

ARE YOU SURE YOU AREN'T TAKING AN OPIOID?

One out of three

Americans doesn't know their prescriptions contain opioids.

Even when taken as prescribed to treat moderate or severe pain, prescription opioids can have serious risks and side effects.

PROTECT YOURSELF AND YOUR LOVED ONES BY SHARING THESE LABELS AND STARTING A CONVERSATION ABOUT THE RISKS ASSOCIATED WITH OPIOIDS. PICK UP A WARN ME LABEL CARD FROM YOUR EMPLOYER TODAY TO REMIND YOURSELF TO TALK WITH YOUR PROVIDER ABOUT YOUR PAIN MANAGEMENT OPTIONS.
